

Project Towards No Drugs

The Scott County Partnership partners with SCSD1 & SCSD2 to teach substance prevention to every student in Scott County. The goal is to increase protective factors and decrease risk factors to help students build knowledge, resilience and resist peer pressure. Building healthy relationships and maintaining good mental health are essential key components to help lower the risk of substance use.

What is Project TND?

Project TND is an effective, interactive classroom-based substance abuse prevention program that is based on more than two decades of successful research at the University of Southern California. Project TND focuses on three factors that predict tobacco, alcohol, and other drug use, violence-related behaviors: Motivation Factors, Life Skills, and Decision Making Skills.

10TH GRADE SCSD 1 & SCSD2

The Scott County Partnership teaches Project TND in both school districts. The 12 lessons are taught to 10th grade students in both SCSD1 and SCSD2.

Overall, the sessions are highly interactive, with the use of the Socratic method, classroom discussions, skill demonstrations, role-playing, and psychodrama techniques throughout the curriculum.
